EMY-TOUR — Projet web (fichiers séparés)

Ce document contient les 3 fichiers principaux prêts à être copiés dans ton projet `emy-tour/` :

- `index.html` — page principale
- `style.css` — styles séparés
- `script.js` — comportements JS (menu, filtres, slider, EmailJS)
- `README` — instructions rapides

Important — EmailJS : le formulaire est prêt pour EmailJS. Remplace les valeurs `YOUR_SERVICE_ID`, `YOUR_TEMPLATE_ID`, `YOUR_PUBLIC_KEY` dans `script.js` par tes identifiants EmailJS.

---

README — Déploiement rapide

```
Structure du projet:

emy-tour/
├── index.html
├── style.css
├── script.js
├── images/ (place ici: paris.jpg, dubai.jpg, new-york.jpg, bali.jpg,
rome.jpg, tokyo.jpg, hero-bg.jpg)

Instructions:
1. Remplace les images dans `images/` par celles que tu veux.
2. Ouvre `index.html` dans ton navigateur pour tester localement.
3. Pour le formulaire EmailJS:
    - Crée un compte sur https://www.emailjs.com/
    - Crée un "service" (ex: gmail, smtp provider) puis un "template".
    - Dans `script.js` remplace `YOUR_SERVICE_ID` et `YOUR_TEMPLATE_ID`.
    - Dans `index.html` remplace `YOUR_PUBLIC_KEY` dans la ligne
`emailjs.init('YOUR_PUBLIC_KEY');`.
4. Hébergement: tu peux déposer le dossier sur Netlify, Vercel, GitHub Pages
ou un hébergeur classique.

Conseils SEO / perf:
- Serve les images optimisées (webp si possible) et avec attributs `width/
height` pour LCP.
- Active compression (gzip/brotli) côté serveur.
- Ajoute `rel="preload"` pour la police principale si nécessaire.

Accessibilité:
- Les éléments interactifs ont maintenant des `aria-label` et `aria-hidden`
lorsque pertinent.
- Ajoute `alt` pour chaque image.
```

Si tu veux, je peux : - Générer un ZIP prêt à l'emploi (je peux préparer les fichiers ici dans la canvas pour que tu copies). - Ajouter le contenu complet des cartes (toutes les cartes avec images et textes) — actuellement j'ai mis un exemple pour Paris, je peux dupliquer les autres.

Indique-moi si tu veux que je **remplisse toutes les cartes et FAQs** dans ces fichiers ou si tu préfères remplir tes images locales toi-même.
